2015-2016 Illinois Central School Bus Contract Extension

Beginning with the 2012 school year, school districts 87, 16, 41 and 89 formed a transportation consortium. The districts entered into a five-year agreement with Illinois Central School Company to provide transportation services for regular education students. The agreement allowed for annual increases to per-route cost limited to the annual increase in the Consumer Price Index (CPI).

Illinois Central School Bus Company has forwarded a contract extension reflecting an annual increase for the 2016 school year limited to CPI (1.5%). The bus company requested an increase in last year's contract as a result of high fuel costs. The consortium declined to pay the increase.

This information will be presented to the Board of Education for discussion at the April 13, 2015, meeting and approval at the April 27, 2015, meeting.
