

March 23, 2009

Dear Students, Moms and Dads,

The Environmental Ambassadors have been inspired by local schools to "think green" for lunch. The PTA agreed to our environmentally friendly plan to decrease garbage at lunch and stop wasting food. The plan is to have kids bring home their trash and uneaten food. This will start after Spring Break. It will start a conversation with your parents /child so you will know what is liked or disliked in the lunch.

We would like everyone to use thermos or reusable bottles and lunch boxes - save paper bags for field trips. All children will be bringing home their baggies, napkins, scraps, drink containers (plastic bottles), and uneaten food. We are also collecting the drink containers of Capri Sun and other juice box brands to earn pennies for the Resource Center. The Ambassadors are very proud of this plan and thank you for supporting the school and the Environmental Ambassadors!

Sincerely,

The Environmental Ambassadors
