DISTRICT 41 VISION STATEMENT

Our Vision

Ignite passion. Inspire excellence. Imagine possibilities.

Our Mission

We embrace the future with optimism, working in partnership with our community on behalf of our children. We develop intellect, engage creativity, foster responsibility, and build positive and collaborative relationships to enable all children to thrive in a changing and increasingly global society.

Our Values

Our values are the cornerstones of our learning community and direct the actions we take; we must model, teach and live them throughout the district.

- We expect honesty, integrity and ethical behavior of all members of our learning community.
- We empower every child to become a self-directed lifelong learner capable of creative and critical thinking.
- We emphasize written and oral skills which are essential to success, timeless in their importance and are the basis of future learning.
- We encourage flexibility and adaptability knowing they are necessary to succeed in a global and diverse society.
- We leverage our resources and technology to create powerful and equitable educational environments and experiences for all learners.

DISTRICT 41 FISCAL PHILOSOPHY

The district's budget is aligned with Board Fiscal Philosophy, Board Policy 4:20 and 4:20AP. Adherence to this philosophy and supporting processes has helped District 41 achieve sound finances, reach the state's highest score of 4.0 (earning Financial Recognition), and earn a Triple A rating from Moody's Investor Service.

Fiscal Philosophy

The District shall establish and follow guidelines for the budget development process that provide the community with consistent delivery of high quality educational programs. These programs should be provided in safe and secure learning environments, in facilities that are physically and operationally sound and within the fiscal constraints as deemed necessary by the Board of Education.

The Superintendent or his designee shall develop the district budget within the following guidelines:

1. *The budget shall provide for the continued delivery of high quality educational programs aligned with long-range priorities without deficit spending.*
2. *The budget shall provide for educating students in safe and secure facilities, which are maintained and updated to best serve the learning needs of students.*
3. *The district shall maintain staffing patterns that align with class size targets and state or federally mandated requirements.*
4. *The unreserved fund balance as of June 30 of each fiscal year on a fully accrued basis (Education, Tort, Working Cash, Operations and Maintenance and Transportation) shall be maintained at 25% of operating expenses in order to continue to provide the community with uninterrupted programs or services, to maintain the highest financial rating the state offers, and to maintain a high investment rating. Under no circumstances should the fund balance be maintained at less than 10% of the preceding year's operating expenditures without approval of the full Board and a written rationale for reducing the reserve below 10%.*

If fund balances are reduced below 25% of operating expenses:

- *A budget plan will be implemented to annually increase the fund balance to reach 25% of operating expenditures.*
- *If a one-time expenditure is requested, requiring the use of the fund balances, a written rationale for the expenditure first must be presented to the Finance Committee for review of the expenditure using an established criterion-based rubric, which includes a plan to restore the fund balance, and then to the full Board of Education for approval. If the unreserved fund balances cannot be maintained at the specified levels due to changes in anticipated revenues the administration shall provide the board with alternative operating recommendations.*
- *Early tax revenues received by the District prior to July 1 of the fiscal year for which they are intended shall not be expended until the new fiscal year commences.*

If the fund balance exceeds 25% of operating funds:

- *A plan will be made based on Board approval of recommendations from the superintendent and the Finance Committee.*

THE BUDGET AS A ROADMAP

The budget helps the district manage its resources wisely to meet its commitment to the community's children through the Long-Range Plan's educational and operational priorities. The budget is a guiding plan and is not set in stone; adjustments and amendments may be made over the course of the year.

As expenditure proposals accounted for within this plan are brought forward, they go through a three-step process:

- 1) Board of Education (BOE) Finance Committee reviews recommendations that have a financial impact.
- 2) Once the committee is satisfied, the matter moves to the board for discussion. At this point the BOE may ask for more information, send the proposal back for more work, or agree that the matter be put on a future agenda for action.

- 3) The Board of Education takes action and votes on the recommendation.

This process helps protect the financial health of the district and provides time for the community to provide input into decisions.

Highlights of the Tentative 2015-16 budget include:

- Highly qualified staff in every building, every classroom, every day to support learning, safety, and the social/emotional well-being of each student.
- Resources available to staff to meet the needs of our students.
- Professional development to ensure staff is provided the necessary "tools" to support student learning.
- Maintenance of facilities to foster learning within each of our schools.
- Creating more opportunities for community to engage through enhanced communication strategies.
- Continuing to enhance technology that supports student learning

BUDGETS, SCHOOL ACCOUNTING AND THE LAW

School budgets are governed by different regulations and practices than typical business or family budgets. The main differences are:

Fund accounting

School district records, budgeting and reporting are on a fund basis. Nine funds are established for specific activities and objectives and operate in accordance with laws and regulations. Each fund is treated as a separate and independent entity with its own assets, liabilities and fund balance.

- Educational Fund: To account for the majority of the instructional and administrative aspects of the district's operations.
- Operations and Maintenance Fund: To account for the repair and maintenance of district property.
- Transportation Fund: To account for activity relating to student transportation to and from school for regular and special education students.
- Municipal Retirement/Social Security Fund: to account for the district's portion of personnel costs.
- Capital Projects Fund: To account for capital improvements in accordance with purposes set forth by the Board of Education.
- Life Safety Fund – To account for Life Safety expenditures in accordance with the Life Safety Code.
- Debt Service Fund: To account for the district's bond and interest payments.
- Working Cash Fund: To account for inter-fund borrowing and provide for the district's savings account.

Federal and State mandates

Public schools must fund certain programs and services by law, even if it means deficit spending. Some familiar programs governed by mandates include special education, life-safety and ESL/bilingual programs.

Cash balances

Districts keep cash reserves for emergencies, or if revenues are distributed late, they can make their payments and not accrue penalties.

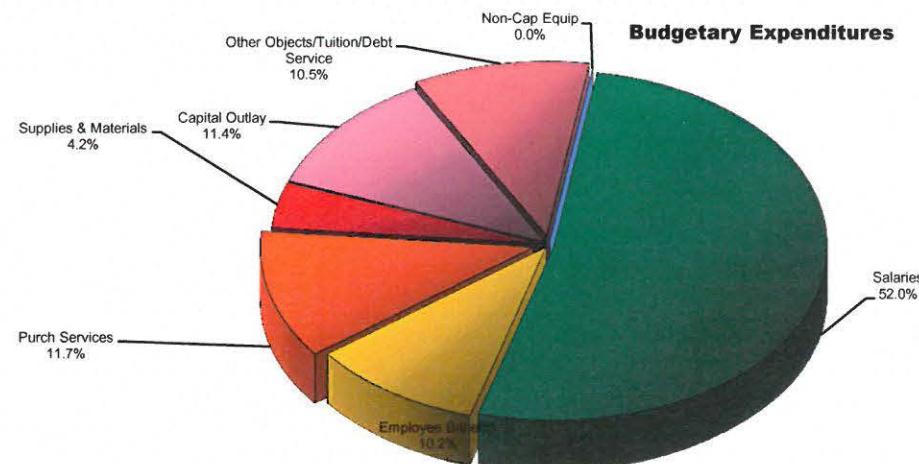

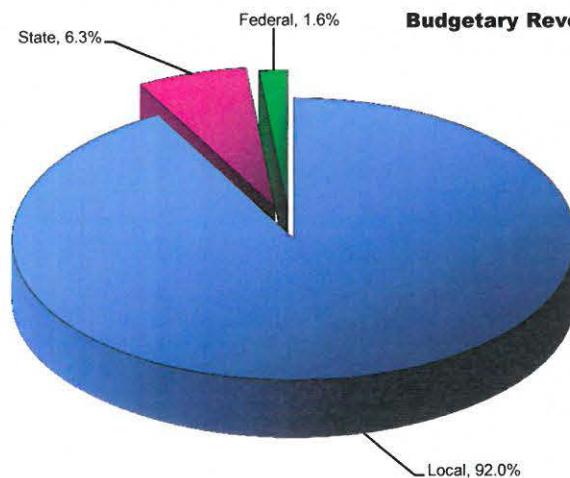

Tax Cap

The Tax Limitation Law of 1991 limits the increase of total dollars the district can receive over the previous year to 5% or the CPI, not including taxes from new construction.

Assumptions:

*Pull \$650,000 from salaries due to retirements (13 staff)

*One staff retirement

*Pull \$250,000 from salaries due to retirements (5 staff)

*Reduce levy bond paid off

*Other possible reductions - TRS roll in 1% annually

Senate Bill 1 Possible Reductions
