

2019-20 Annual Budget Plan

Glen Ellyn School District 41

793 N. Main Street Glen Ellyn, IL 60137

Glen Ellyn School District 41

Ignite passion. Inspire excellence. Imagine possibilities.

Abraham Lincoln Benjamin Franklin Churchill Forest Glen Hadley

Glen Ellyn School District 41 2019-2020 Budget

This Fiscal Year 2019/2020 Budget is submitted for your review. The budget presents the District's finance and operations plan and reflects the financial support of the goals and objectives of the District.

Budgets and financial projections are snapshots using the latest available information. School finance is conducted in a dynamic environment. Financial planning and management are affected by numerous internal and external events. Some of these factors include:

- Future State and Federal legislation impacting revenue expectations
- Interest rate changes
- Enrollment growth, or decline, and the changes in personnel needed to accommodate the students
- Special education services for students with disabilities
- Number of retirees and related benefits
- Medical insurance premium changes
- Capital improvement needs related to asset maintenance

The District has compiled this budget using the most recent information available along with historical estimates for unknown items. The budget has been updated to reflect the most current information available since being presented in tentative form on June 17, 2019.

As you will see, the FY20 budget reflects a balanced budget with an expected surplus of approximately \$131,088. Budgeted levels have been set based on recent historical trends in both revenue and expenditures.

Fund Accounting Explained

The District uses a fund accounting system established by the Illinois School Code and the Illinois Program Accounting Manual. Each fund is an individual set of accounts and are used to record transactions related to the purpose of each fund. A separate budget for each fund is prepared showing estimated revenues and expenditures.

General Funds

Education Fund

The District receives the majority of its revenue and also expends the majority of the budget from the Education Fund. The Education Fund is used to provide instructional programs and related costs such as salaries and benefits, instructional materials, equipment, furnishings, and supplies.

Operations and Maintenance Fund

All costs of maintaining, improving, or repairing school buildings and renting buildings and property for school purposes are charged to the Operations and Maintenance Fund and paid from the tax levied for that purpose.

Special Revenue Funds

Transportation

Costs of transportation are to be paid from this fund. Moneys received for transportation purposes from any source must be deposited into this fund.

Illinois Municipal Retirement Fund (IMRF) and Social Security Fund

This fund is created to house the tax levied for the school district's share of the Illinois Municipal Retirement Fund and Social Security/Medicare benefits for covered employees. This fund is used solely to pay the pension obligations to IMRF, social security costs, and medicare costs.

Debt Service Fund

Bond and Interest Fund

Bonds are generally issued to finance the construction of buildings, but may also be issued for other purposes. Taxes are levied to provide cash to retire these bonds and to pay related interest. To protect the bondholders, these tax collections must be accounted for in the Debt Service Fund and maintained in separate bond and interest accounts for each bond issue.

Capital Projects Fund

This fund is created for the purposes of recording site and building construction projects.

Working Cash Fund

If a separate tax is levied for working cash purposes or if bonds are sold for this purpose, this fund shall be created. Cash available in this fund may be loaned to any fund for which taxes are levied.

Budget Assumptions 2019-2020 School Year

General Assumptions - Staffing, Enrollment and Programs

- Staffing reflects an increase of 7.2 FTE from FY19 to FY20. As has been previously discussed, the additions are included to meet existing student needs. Each addition was carefully reviewed prior to inclusion in the budget plan.
- Student enrollment is projected to remain relatively flat, with some slight increases possible. Attention is currently focused on a couple areas where we may need to add an additional section based on registration trends. In addition, the District continues to monitor the housing developments that fall within the District boundaries, most notably the APEX 400 project. At this time enrollment impact is expected to be minimal.
- Department level budgets reflect a reduction of approximately \$320,000 in non-salary and benefit expenditure totals. The reductions represent an effort to produce a budget that more accurately matches historical spending trends.

Revenue Assumptions

- Local taxes are budgeted to be \$673,194 higher than the previous year. This is related to the 2018 levy decision, combined with the increase for new property tax growth. Additionally, in order to budget closely to expected returns, tax receipts are set to 99.5% of our levy which represents the District's historical collection rate.
- State funding is expected to increase by approximately \$52,977. The bulk of this shift is related to increased reimbursements expected related to special education transportation expenditures.
- Interest income continues to outpace the returns we were receiving 3-5 years ago. Accordingly, the budget for interest has been increased from \$168,000 to \$583,000.

Expenditure Assumptions

- Capital project spending reflects a budgeted increase of \$1,341,000. This budget level is reflective of the master budget plan related to projects being completed in tandem with our referendum work. FY20 will be a higher than average year for expenditures in this area with sizable decreases expected in future years.
- The technology budget reflects an increase of approximately \$798,000. As previously discussed, this budget is reflective of a shift from leasing to purchasing certain district hardware. Similar to the capital project budget, FY20 will be a higher than average year for expenditures in this area with sizable decreases expected in future years.
