Glen Ellyn School District 41 2020-2021 Budget

This Fiscal Year 2020/2021 Budget is submitted for your review. The budget presents the District's finance and operations plan and reflects the financial support of the goals and objectives of the District.

Budgets and financial projections are snapshots using the latest available information. School finance is conducted in a dynamic environment. Financial planning and management are affected by numerous internal and external events. Some of these factors include:

- Future State and Federal legislation impacting revenue expectations
- Interest rate changes
- Enrollment growth, or decline, and the changes in personnel needed to accommodate the students
- Special education services for students with disabilities
- Number of retirees and related benefits
- Medical insurance premium changes
- Capital improvement needs related to asset maintenance

The District has compiled this budget using the most recent information available along with historical estimates for unknown items. The budget has been updated to reflect the most current information available since being presented in tentative form on June 22, 2020.

As you will see, the FY21 budget reflects a deficit budget with an expected shortfall of approximately \$1,407,105. **Importantly, the budget as presented includes Covid-19 related net expenditures of \$1,763,087.** If not for the increased expenditure estimates for potential Covid related costs the budget would show a surplus of \$355,982.

Fund Accounting Explained

The District uses a fund accounting system established by the Illinois School Code and the Illinois Program Accounting Manual. Each fund is an individual set of accounts and are used to record transactions related to the purpose of each fund. A separate budget for each fund is prepared showing estimated revenues and expenditures.

General Funds

Education Fund

The District receives the majority of its revenue and also expends the majority of the budget from the Education Fund. The Education Fund is used to provide instructional programs and related costs such as salaries and benefits, instructional materials, equipment, furnishings, and supplies.

Operations and Maintenance Fund

All costs of maintaining, improving, or repairing school buildings and renting buildings and property for school purposes are charged to the Operations and Maintenance Fund and paid from the tax levied for that purpose.

Special Revenue Funds

Transportation

Costs of transportation are to be paid from this fund. Moneys received for transportation purposes from any source must be deposited into this fund.

Illinois Municipal Retirement Fund (IMRF) and Social Security Fund

This fund is created to house the tax levied for the school district's share of the Illinois Municipal Retirement Fund and Social Security/Medicare benefits for covered employees. This fund is used solely to pay the pension obligations to IMRF, social security costs, and medicare costs.

Debt Service Fund

Bond and Interest Fund

Bonds are generally issued to finance the construction of buildings, but may also be issued for other purposes. Taxes are levied to provide cash to retire these bonds and to pay related interest. To protect the bondholders, these tax collections must be accounted for in the Debt Service Fund and maintained in separate bond and interest accounts for each bond issue.

Capital Projects Fund

This fund is created for the purposes of recording site and building construction projects.

Working Cash Fund

If a separate tax is levied for working cash purposes or if bonds are sold for this purpose, this fund shall be created. Cash available in this fund may be loaned to any fund for which taxes are levied.

Budget Assumptions 2020-2021 School Year

General Assumptions - Staffing, Enrollment and Programs

- Staffing reflects an increase from 450.94 to 460.80 FTE. This represents an increase of 9.86 FTE over the FY20 staffing levels. The increase includes 3.86 FTE which are directly related to enrollment related increases. Additionally, an increase of 6.0 FTE has been added to address staffing needs related to Covid-19. **The six positions are expected to be short term positions that will not remain following the pandemic.**
- As mentioned above, registration numbers indicate an increase in enrollment for next year in several grade levels which will put us over class size maximums. The addition of 3.86 FTE has been included in the budget to meet these section increases.
- Non-salary and benefit department and building level budgets have been kept at FY20 levels. One exception would be increases in the area of supplies, which have been slightly increased in order to meet expected PPE needs.

Revenue Assumptions

- Local taxes are budgeted to be \$1,673,880 higher than the previous year. This is related to the 2019 levy decision, combined with the increase for new property tax growth. In consideration of the potential impact on tax receipts of the current pandemic, tax receipts are set to 99.0% of our levy which is approximately 0.7% lower than the District's historical collection rate.
- State funding is expected to decrease by approximately \$31,425. The expected reduction is related to the announced lower rates of reimbursements for categorical payments, (i.e. General and special education transportation).
- Interest income rates have dropped substantially over the past three quarters. As a result, estimated returns for the coming school year have been reduced. The budget for interest has been reduced from \$583,000 to \$343,000.

Expenditure Assumptions

- In connection to the current Covid-19 pandemic, net expenditure estimates of approximately \$1,763,087 have been added to the budget. We remain hopeful that some of these expenditures will not be required, however it is difficult to predict exactly how long the current pandemic will continue to impact operations.
- Capital project spending reflects a budgeted decrease of \$161,000. This budget level is reflective of the five year capital plan presented to the Board of Education in the fall of 2019.
- The technology budget reflects a decrease of approximately \$301,743. The reduction in expenditures is based on the five year technology plan which fluctuates year to year in response to planned hardware acquisition costs.
