INDEPENDENT AUDITORS' REPORT ON SUPPLEMENTARY INFORMATION

To the Board of Education Glen Ellyn School District 41 Glen Ellyn, Illinois

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Glen Ellyn School District 41 (the "District") as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated October 7, 2016 which contained unmodified opinions on those financial statements. Our audit was performed for the purpose of forming opinions on the financial statements as a whole.

The accompanying Annual Financial Report (ISBE Form SD50-35/JA50-60), as of and for the year ended June 30, 2016, has been prepared in the form prescribed by the Illinois State Board of Education, is presented for purposes of additional analysis, and is not a required part of the basic financial referenced in the preceding paragraph. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information, except for the financial profile information, estimated financial profile summary, supplementary schedules, statistical section, estimated indirect cost rate for federal programs, report on shared services or outsourcing, administrative cost worksheet and itemization schedules, and deficit reduction calculation, which were not audited and on which we render no opinion, has been subjected to the auditing procedures applied to the audit of the basic financial statements and certain other additional procedures including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, except for those portions identified in the previous sentence as not audited, is fairly stated in all material respects, in relation to the basic financial statements as a whole.

The answers to questions 1 through 23 contained in the "Auditor's Questionnaire" on page 2 are based solely on the procedures performed and data obtained during the audit of the basic financial statements of the District as of and for the year ended June 30, 2016.

This report is intended solely for the information and use of the Board of Education, management of the Glen Ellyn School District 41, and the Illinois State Board of Education and is not intended to be and should not be used by anyone other than these specified parties.

Bake Tilly Vischar Kilouse, LLP Oak Brook, Illinois October 7, 2016

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2016

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Glen Ellyn School District 41 (the "District") operates as a public school system governed by a sevenmember board. The District is organized under the School Code of the State of Illinois, as amended. The accounting policies of the District conform to the regulatory provisions prescribed by the Illinois State Board of Education, which is a comprehensive basis of accounting other than accounting principles accepted in the United States of America, as applicable to local governmental units of this type. The following is a summary of the more significant accounting policies of the District:

Reporting Entity

This report includes all of the funds of the District. The reporting entity for the District consists of the primary government and its component units. Component units are legally separate organizations for which the primary government is financially accountable or other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity's financial statements to be misleading. The District has not identified any organizations that meet this criteria.

Basis of Presentation

The accounts of the District in the governmental fund financial statements are organized and operated on the basis of funds and account groups and are used to account for the District's general governmental activities. Fund accounting segregates funds according to their intended purpose, and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, reserves, fund balance, revenues and expenditures or expenses as appropriate. The minimum number of funds is maintained consistent with legal and managerial requirements. Account Groups are a reporting device to account for certain assets and liabilities of the governmental funds not recorded directly in those funds.

Measurement Focus and Basis of Accounting

The District has the following fund types and account groups:

Governmental Funds are used to account for the District's general government activities. Governmental fund types use the flow of current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when susceptible to accrual, i.e., when they are both "measurable and available". "Measurable" means that the amount of the transaction can be determined, and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers all revenues available if they are collected within 60 days after yearend. Expenditures are recorded when the related fund liability is incurred. However, expenditures for unmatured principal and interest on general long-term debt are recognized when due; and certain compensated absences, claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources and pension expenditures.

Major Governmental Funds

<u>Educational Fund</u> - the general operating fund of the District. It accounts for all financial resources except those required to be accounted for in another fund. This fund is primarily used for most of the instructional and administrative aspects of the District's operations. Revenues consist largely of local property taxes and state government aid.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2016

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (CONTINUED)

<u>Special Revenue Funds</u> - account for the proceeds of specific revenue sources that are legally restricted or committed to expenditures for specified purposes, other than those accounted for in the Debt Service Fund, Capital Projects Funds or Fiduciary Funds.

Each of the District's Special Revenue Funds has been established as a separate fund in accordance with the fund structure required by the State of Illinois for local educational agencies. These funds account for local property taxes restricted to specific purposes. A brief description of the District's Special Revenue Funds follows:

Tort Immunity and Judgment Fund - accounts for all revenue and expenditures related to the prevention of tort liability. Revenue is derived primarily from local property tax collections and investment income.

Operations and Maintenance Fund - accounts for expenditures made for repair and maintenance of the District's buildings and land. Revenue consists primarily of local property taxes.

Transportation Fund - accounts for all revenue and expenditures made for student transportation. Revenue is derived primarily from local property taxes and state reimbursement grants.

Municipal Retirement / Social Security Fund - accounts for the District's portion of pension contributions to the Illinois Municipal Retirement Fund, payments to Medicare, and payments to the Social Security System for non-certified employees. Revenue to finance the contributions is derived primarily from local property taxes and personal property replacement taxes.

Working Cash Fund - accounts for financial resources held by the District to be used as temporary interfund loans for working capital requirements to the General Fund and the Special Revenue Fund's Operation and Maintenance and Transportation Funds. Money loaned by the Working Cash Fund to other funds must be repaid within one year. As allowed by the School Code of Illinois, this fund may be permanently abolished and become a part of the General Fund or it may be partially abated any other fund of the District.

<u>Debt Service Fund</u> - accounts for the accumulation of resources that are restricted, committed, or assigned for, and the payment of, long-term debt principal, interest and related costs. The primary revenue source is local property taxes levied specifically for debt service and transfers from other funds.

<u>Capital Project Fund</u> - accounts for the financial resources that are restricted, committed, or assigned to be used for the acquisition or construction of, and/or additions to, major capital facilities.

Capital Projects Fund - accounts for construction projects and renovations financed through developer donations, serial bond issues, debt certificates, or transfers from other funds.

Other Fund Types

<u>Fiduciary Funds</u> - account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governments or other funds.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2016

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (CONTINUED)

Agency Funds - include Student Activity Funds, Convenience Accounts and Other Agency Funds. These funds are custodial in nature and do not present results of operations or have a measurement focus. Although the Board of Education has the ultimate responsibility for Activity Funds, they are not local education agency funds. Student Activity Funds account for assets held by the District which are owned, operated and managed generally by the student body, under the guidance and direction of adults or a staff member, for educational, recreational or cultural purposes. Convenience Accounts account for assets that are normally maintained by a local education agency as a convenience for its faculty, staff, etc.

On-behalf payments (payments made by a third party for the benefit of the district, such as payments made by the state to the Teachers' Retirement System) have been recognized in the financial statements.

Property taxes, replacement taxes, certain state and federal aid, and interest on investments are susceptible to accrual. Other receipts become measurable and available when cash is received by the District and recognized as revenue at that time.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as unearned revenues until earned.

All Financial Statements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, and deferred inflows of resources and disclosure of contingent assets, deferred outflows of resources, liabilities, and deferred inflows of resources at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

Assets, Liabilities and Net Position or Equity

Deposits and Investments

State statutes authorize the District to invest in obligations of the U.S. Treasury, certain highly-rated commercial paper, corporate bonds, repurchase agreements, and the State Treasurer's Investment Pool. Investments are stated at fair value. Changes in fair value of investments are included as investment income.

Receivables and Payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds". Receivables are expected to be collected within one year.

Unearned Revenue

Governmental funds report unearned revenue in connection with resources that have been received, but not yet earned.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2016

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (CONTINUED)

Property Tax Revenues

The District must file its tax levy resolution by the last Tuesday in December of each year. The District's 2015 levy resolution was approved during the December 14, 2015 board meeting. The District's property tax is levied each year on all taxable real property located in the District and it becomes a lien on the property on January 1 of that year. The owner of real property on January 1 in any year is liable for taxes of that year.

The tax rate ceilings are applied at the fund level. These ceilings are established by state law subject to change only by the approval of the voters of the District.

The PTELA limitation is applied in the aggregate to the total levy (excluding certain levies for the repayment of debt). PTELA limits the increase in total taxes billed to the lessor of 5% or the percentage increase in the Consumer Price Index (CPI) for the preceding year. The amount can be exceeded to the extent there is "new growth" in the District's tax base. The new growth consists of new construction, annexations and tax increment finance district property becoming eligible for taxation. The CPI rates applicable to the 2015 and 2014 tax levies were 0.8% and 1.5%, respectively.

Property taxes are collected by the County Collector/Treasurer, who remits to the District its share of collections. Taxes levied in one year become due and payable in two equal installments: the first due on June 1 and the second due on September 1. Property taxes are normally collected by the District within 60 days of the respective installment dates.

The 2015 property tax levy is recognized as a receivable in fiscal 2016, net of estimated uncollectible amounts approximately 1% and less amounts already received. The District considers that the 2015 levy is to be used to finance operations in fiscal 2017. Therefore, the entire 2015 levy, including amounts collected in fiscal 2016, has been recognized as a deferred inflow of resources, in the accompanying financial statements.

Personal Property Replacement Taxes

Personal property replacement taxes are first allocated to the Municipal Retirement / Social Security Fund, and the balance is allocated to the remaining funds at the discretion of the District.

Fixed Assets

Fixed assets used in governmental fund types of the District are recorded in the general fixed assets account group at cost or estimated historical cost if purchased or constructed. Donated fixed assets are recorded at their estimated fair value at the date of donation. Interest incurred during construction is not capitalized on general fixed assets.

Depreciation of general fixed assets is provided over the estimated useful lives using the straight-line method and is reflected within the general fixed assets account group for informational purposes only. Depreciation of general fixed assets is not charged to the operations of the District. The estimated useful lives of the buildings and improvements, and equipment of the District are 15 to 50 years, and 5 to 10 years, respectively.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2016

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (CONTINUED)

Compensated Absences

Under terms of employment, employees are granted sick leave and vacations in varying amounts. Only benefits considered to be vested are disclosed in these statements.

All vested vacation and sick leave pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements, or are payable with expendable available resources.

Administrators receive 20 days per year of vacation leave. 12 month Exempt staff receive vacation days based upon the number of years of service they have with the District and varies between 10 and 20 days per year. 12 month staff that are in the American Federal of State County and Municipal Employees bargaining unit receive vacation days based upon the number of years of service they have with the District and varies between 10 and 20 days per year. All of these groups can request up to 5 unused vacation days to be rolled into the following year.

Payments for vacation and sick leave will be made at rates in effect when the benefits are used. Accumulated vacation and sick leave liabilities at June 30, 2016 are determined on the basis of current salary rates and include salary related payments.

Long-Term Obligations

The District reports long-term debt of governmental funds at face value in the general long-term debt account group. Certain other long-term obligations that do not show evidence of indebtedness are not included in the general long-term debt account group.

For governmental fund types, bond premiums and discounts are recognized during the current period. Bond proceeds are reported as an "other financing source" net of the applicable premium or discount.

General Fixed Assets and General Long-Term Debt Account Groups

Account groups are used to establish accounting control and accountability for the District's general fixed assets and general long-term debt. The accounting and financial reporting treatment applied to the fixed assets and long-term liabilities associated with a fund are determined by its measurement focus.

Fixed Assets - General fixed assets have been acquired for general governmental purposes. At the time of purchase, assets are recorded as expenditures paid in the Governmental Funds and capitalized at cost in the General Fixed Assets Account Group. Donated general fixed assets are listed at estimated fair market value as of the date of acquisition. Depreciation accounting is not applicable, except to determine the per capita tuition charge. Interest costs incurred during construction are not capitalized as part of fixed assets.

Long-Term Debt - Long-term debt expected to be financed from governmental funds are accounted for in the General Long-Term Debt Account Group, not in the governmental funds. The debt recorded in the District's General Long-Term Debt Account Group consists of serial bond issues, long-term debt retirements payable, and any other evidences of indebtedness.

The two account groups are not "funds." They are concerned only with the measurement of financial position. They are not involved with measurement of results of operations.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2016

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgetary Data

The budgeted amounts for the Governmental Funds are adopted on the modified accrual basis, which is consistent with accounting principles generally accepted in the United States of America.

The Board of Education follows these procedures in establishing the budgetary data reflected in the general purpose financial statements:

- 1. The Administration submits to the Board of Education a proposed operating budget for the fiscal year commencing July 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. Public hearings are conducted and the proposed budget is available for inspection to obtain taxpayer comments.
- 3. Prior to September 30, the budget is legally adopted through passage of a resolution. By the last Tuesday in December, a tax levy resolution is filed with the county clerk to obtain tax revenues.
- 4. Management is authorized to transfer budget amounts, provided funds are transferred between the same function and object codes. The Board of Education is authorized to transfer up to a legal level of 10% of the total budget between functions within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the Board of Education, after following the public hearing process mandated by law.
- 5. Formal budgetary integration is employed as a management control device during the year for all governmental funds.
- 6. All budget appropriations lapse at the end of the fiscal year.

The budget amounts shown in the financial statements are as originally adopted because there were no amendments during the past fiscal year.

Excess of Expenditures over Budget

For the year ended June 30, 2016, expenditures exceeded budget in the General Fund (Educational Accounts), and Debt Service Fund by \$6,744,534 and \$1,953 respectively. These excesses were funded by available fund balance.

NOTE 3 - DEPOSITS AND INVESTMENTS

At year end, the District's cash and investments was comprised of the following:

	Go	vernment-		
		wide	 Fiduciary	 Total
Cash and investments	\$	40,068,304	\$ 97,807	\$ 40,166,111
Total	<u>\$</u>	40,068,304	\$ 97,807	\$ 40,166,111

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2016

NOTE 3 - DEPOSITS AND INVESTMENTS - (CONTINUED)

For disclosure purposes, this amount is segregated into the following components: 1) cash on hand 2) deposits with financial institutions, which include amounts held in demand accounts, savings accounts and non-negotiable certificates of deposit 3) investments in the Illinois School District Liquid Asset Fund Plus (ISDLAF+); and 3) other investments, which consist of all investments other than certificates of deposit and ISDLAF+, as follows:

	Cash and investments				
Cash on hand Deposits with financial institutions ISDLAF+ Other investments	\$ 200 13,295,425 15,875,700 10,994,786	5			
Total	<u>\$ 40,166,111</u>	1			

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The District's investments detailed in the interest rate risk table below are measured using the market valuation method and Level 2 valuation inputs.

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the value of an investment. The District's investment policy seeks to ensure preservation of capital in the District's overall portfolio. Return on investment is of secondary importance to safety of principal and liquidity. The policy does not limit investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. However, the policy requires the District investment portfolio to be sufficiently liquid to enable the District to meet all operating requirements as they come due. A portion of the portfolio is required to be invested in readily available funds to ensure appropriate liquidity.

At year end, the District had the following investments subject to interest rate risk:

	Investment Maturity (In Years)								
	 Fair Value	L	ess than one		1-5		6-10	IV	lore than 10
ISDLAF + Term Series Negotiable CD's	\$ 9,750,000 1,244,786	\$	9,750,000 1,244,786	\$	-	\$	<u>-</u>	\$	
Total	\$ 10,994,786	\$	10,994,786	\$_		\$	_	\$	

Redemption Notice Period. Investments in ISDLAF's Term Series may be redeemed upon seven days' advance notice. Redemption prior to maturity may result in the realization of a loss on the investment, including a penalty in an amount necessary to recoup the Term Series penalty charges, losses and other costs attributable to the early redemption.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2016

NOTE 3 - DEPOSITS AND INVESTMENTS - (CONTINUED)

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. State Statutes limit the investments in commercial paper and corporate bonds to the top three ratings of two nationally recognized statistical rating organizations (NRSRO's). The District's investment policy authorizes investments in any type of security as permitted by Section 2 through 6 of the Illinois Public Funds Investment Act. Ratings for the ISDLAF+ Term Series and the negotiable certificates of deposit were unavailable.

The Illinois School District Liquid Asset Fund Plus (ISDLAF+) is a not-for-profit investment trust formed pursuant to the Illinois Municipal Code and managed by a Board of Trustees elected from participating members. The trust is not registered with the SEC as an investment company. Investments are rated AAAm and are valued at share price, which is the price for which the investment could be sold.

Concentration of Credit Risk. Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The District's investment policy requires diversification of the investment portfolio to minimize risk of loss resulting from over-concentration in a particular type of security, risk factor, issuer, or maturity. The policy requires diversification strategies to be determined and revised periodically by the District's Investment Officer to meet the District's ongoing need for safety, liquidity, and rate of return.

Custodial Credit Risk - Deposits. With respect to deposits, custodial credit risk refers to the risk that, in the event of a bank failure, the District's deposits may not be returned to it. The District's investment policy limits the exposure to deposit custodial credit risk by requiring all deposits in excess of FDIC insurable limits to be secured by collateral in the event of default or failure of the financial institution holding the funds. As of June 30, 2016, the bank balance of the District's deposit with financial institutions totaled \$14,978,450; this amount was fully collateralized or insured.

Custodial Credit Risk - Investments. With respect to investments, custodial credit risk is the risk that, in the even of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District's investment policy limits the exposure to investment custodial credit risk by requiring all investments be secured by private insurance or collateral.

Occasionally certain funds participating in the common bank accounts will incur overdrafts (deficits) in the account. The overdrafts result from expenditures that have been approved by the Board of Education.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2016

NOTE 4 - INTERFUND TRANSFERS

Also during the year, the Board of Education authorized the abatement of a portion of the Working Cash Fund, thereby transferring fund balance of to the General Fund, to the Operations and Maintenance Fund, to the Debt Services Fund, to the Transportation Fund, to the Municipal Retirement/Social Security Fund, to the Capital Projects Fund, to the Tort Immunity and Judgment Fund and to the Fire Prevention and Life Safety Fund.

During the year, the Board of Education transferred \$202,553 from the General Fund (Educational Accounts) to the Debt Service Fund to pay capital lease principal and interest payments required during the year.

During the year, the Board of Education transferred \$601,360 from the Operations and Maintenance Fund to the Debt Service Fund to pay outstanding debt certificate principal and interest payments required during the year

During the year, the Board of Education transferred \$1,652,278 from Operations and Maintenance Fund to the Capital Projects Fund for the purpose of funding multiple capital projects in the current and subsequent fiscal year.

State law allows for these transfers.

NOTE 5 - OPERATING LEASES

The District leases equipment under noncancelable operating leases. Total costs for such leases were \$712,113 for the year ended June 30, 2016. At June 30, 2016, future minimum lease payments for these leases are as follows:

Year Ending June 30,		 Amount
2017 2018		\$ 238,678 103,460
Total		\$ 342,138

NOTE 6 - LONG TERM LIABILITIES

Changes in General Long-term Liabilities. The following is the long-term liability activity for the District for the year ended June 30, 2016:

	Beginning Balance	Additions	Deletions	Ending Balance	Due Within One Year
General obligation bonds Capital appreciation	\$ 3,380,000	\$ 7 <u>72</u>	\$ 1,630,000	\$ 1,750,000	\$ 1,750,000
bonds Unamortized premium	4,553,916 45,063	257,811 	1,050,000 29,706	3,761,727 15,357	 1,065,000
Total bonds payable Debt certificates Net pension liability Capital leases Net OPEB obligations	7,978,979 6,678,000 4,464,922 374,051 97,732	257,811 - 2,329,279 - 109,963	 2,709,706 338,000 637,888 191,156 69,598	 5,527,084 6,340,000 6,156,313 182,895 138,097	 2,815,000 355,000 - 133,187

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2016

NOTE 6 - LONG TERM LIABILITIES - (CONTINUED)

Compensated absences	107,528	236,297	233,716	110,109	110,109
Total long-term liabilities	- ,				
governmental activities	\$ 19,701,212	\$ 2,933,350	\$ 4,180,064	<u>\$ 18,454,498</u>	\$ 3,413,296

The obligations for the compensated absences and Net OPEB obligations will be repaid from the General Fund.

The obligations for the net pension liability will be repaid from the General Fund for the portion applicable to the Teacher Retirement System and from the Municipal Retirement/Social Security Fund for the portion applicable to the Illinois Municipal Retirement Fund.

General Obligation Bonds. General obligation bonds are direct obligations and pledge the full faith and credit of the District. General obligation bonds currently outstanding are as follows:

Purpose	Interest Rates	lı	Original ndebtedness	Face Amount	Carrying Amount
Series 2004 General Obligation Refunding Bonds dated September 1, 2004 are due in annual installments through February 1, 2017 Series 1998 Capital Appreciation Bonds dated are due in annual installments	1.50% - 5.00%	\$	9,240,000	\$ 1,750,000	\$ 1,750,000
through February 18, 2018	None		10,999,904	 4,140,000	 3,761,727
Total		\$	20,239,904	\$ 5,890,000	\$ 5,511,727

Annual debt service requirements to maturity for general obligation bonds are as follows for governmental type activities:

	Principal	 Interest	Total
2017 2018	\$ 2,815,000 3,075,000	 87,500 	\$ 2,902,500 3,075,000
Total	\$ 5,890,000	\$ 87,500	\$ 5,977,500

The District is subject to the Illinois School Code, which limits the amount of certain indebtedness to 6.9% of the most recent available equalized assessed valuation of the District. As of June 30, 2016, the statutory debt limit for the District was \$84,780,665, providing a debt margin of \$74,215,892. There are numerous covenants with which the District must comply in regard to these bond issues. As of June 30, 2016, the District was in compliance with all significant bond covenants, including federal arbitrage regulations.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2016

NOTE 6 - LONG TERM LIABILITIES - (CONTINUED)

Alternate Revenue Bonds. The obligations for the debt certificates will be repaid from the Debt Service Fund and funded with transfers from the General Fund (Educational Account) or Operations and Maintenance Fund. The District has pledged future property tax revenues to repay \$7 million of debt certificates issued on March 26, 2014. Proceeds from the debt certificates provided financing for facility improvements. The debt certificates are payable solely from property tax revenues and are payable through April 1, 2029. Annual principal and interest payments on the debt certificates are expected to require between \$604,516 and \$661,206 of property tax revenues. The total principal and interest remaining to be paid on the bonds is \$8,204,778. Principal and interest paid for the current year and total property tax revenues were \$601,360 and \$40,040,523, respectively.

Debt certificates currently outstanding are as follows:

Purpose	Interest Rates	Original Indebtedness	Face Amount	Carrying Amount
Series 2014 Debt Certificate dated March 26, 2014 are due in annual installments through April 1, 2029	4.02%	\$ 7,000,000 \$	6,340,000 \$	6,340,000
Total	·····	\$ 7,000,000 \$	6,340,000 \$	6,340,000

Annual debt service requirements to maturity for debt certificates are as follows for governmental type activities:

	Principal	Interest	Total
2017 2018 2019 2020 2021 2022 - 2026 2027 - 2029	374,0 393,0 413,0 434,0 2,526,0	000 219,638 000 203,538 000 186,618 000 647,572	608,959 612,638 616,538 620,618 2 3,173,572
Total	1,845,0		
illai	<u>\$ 6,340,0</u>	00 \$ 1,864,778	<u>\$ 8,204,778</u>

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2016

NOTE 6 - LONG TERM LIABILITIES - (CONTINUED)

Capital Leases. The District has entered into multiple lease agreements as lessee for financing the acquisition of computer equipment. These lease agreements qualify as capital leases for accounting purposes and, therefore, the assets and obligations have been recorded at the present value of the future minimum lease payments as of the inception date. At June 30, 2016, \$950,120 of amounts included in capital assets were acquired via capital leases. The obligations for the capital leases will be repaid from the Debt Service Fund and funded with transfers from the General Fund (Educational Accounts). The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2016, are as follows:

	Amount
2017 2018	\$ 138,244 50,960
Total minimum lease payments Less: amount representing interest	189,204 (6,30 <u>9</u>)
Present value of minimum lease payments	<u>\$ 182,895</u>

NOTE 7 - RISK MANAGEMENT

The District is exposed to various risks of loss related to employee health benefits; workers' compensation claims; theft of, damage to, and destruction of assets; and natural disasters. To protect the District from workers' compensation risks, the District participates in the following public entity risk pool: Collective Liability Insurance Cooperative. The District pays annual premiums to the pool for insurance coverage. The arrangements with the pool provides that it will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of certain levels established by the pool. There have been no significant reductions in insurance coverage from coverage in any of the past three fiscal years.

The District continues to carry commercial insurance for all other risks of loss, including general liability and health insurance. Premiums have been recorded as expenditures in the appropriate funds. There have been no significant reductions in insurance coverage from coverage in the prior years. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

NOTE 8 - JOINT AGREEMENTS

The District is a member of CASE (The Cooperative Association for Special Education) and DIEC (DuPage Intermediate Educational Cooperative), joint agreements that provide certain special education services to residents of many school districts. The District believes that because it does not control the selection of the governing authorities, and because of the control over employment of management personnel, operations, scope of public service, and special financing relationships exercised by the joint agreements' governing boards, these are not included as component units of the District.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2016

NOTE 9 - OTHER POST-EMPLOYMENT BENEFITS

Teachers' Health Insurance Security

The District participates in the Teacher Health Insurance Security (THIS) Fund, a cost-sharing, multiple-employer defined benefit post-employment healthcare plan that was established by the Illinois legislature for the benefit of retired Illinois public school teachers employed outside the city of Chicago. The THIS Fund provides medical, prescription, and behavioral health benefits, but it does not provide vision, dental, or life insurance benefits to annuitants of the Teachers' Retirement System (TRS). Annuitants not enrolled in Medicare may participate in the state-administered participating provider option plan or choose from several managed care options. Annuitants who are enrolled in Medicare Parts A and B may be eligible to enroll in a Medicare Advantage plan.

The State Employees Group Insurance Act of 1971 (5 ILCS 375) outlines the benefit provisions of the THIS Fund and amendments to the plan can be made only by legislative action with the Governor's approval. The plan is administered by the Illinois Department of Central Management Services (CMS) with the cooperation of TRS. Section 6.6 of the State Employees Group Insurance Act of 1971 requires all active contributors to TRS who are not employees of the state to make a contribution to the THIS Fund.

The percentage of employer required contributions in the future will not exceed 105 percent of the percentage of salary actually required to be paid in the previous fiscal year.

On Behalf Contributions to THIS Fund. The State of Illinois makes employer retiree health insurance contributions on behalf of the District. State contributions are intended to match contributions to THIS Fund from active members which were 1.07 percent of pay during the year ended June 30, 2016. State of Illinois contributions were \$265,511, and the District recognized revenues and expenditures of this amount during the year.

State contributions intended to match active member contributions during the years ended June 30, 2015 and June 30, 2014 were 1.02 and 0.97 percent of pay, respectively. For these years, state contributions on behalf of District employees were \$247,936 and \$231,205, respectively.

Employer Contributions to THIS Fund. The District also makes contributions to THIS Fund. The District's THIS Fund contribution was 0.80 percent during the year ended June 30, 2016 and 0.76 and 0.72 percent during the years ended June 30, 2015 and 2014, respectively. For the years ended June 30, 2016, 2015 and 2014 the District paid \$198,513, \$184,737 and \$171,617 to the THIS Fund, respectively, which was 100 percent of the required contribution for those years.

The publicly available financial report of the THIS Fund may be found on the website of the Illinois Auditor General: http://www.auditor.illinois.gov/Audit-Reports/ABC-List.asp. The current reports are listed under "Central Management Services." Prior reports are available under "Healthcare and Family Services."

Retiree Health Plan

The District administers a single-employer defined benefit healthcare plan ("the Retiree Health Plan"). The plan provides health insurance benefits for eligible retirees and their spouses through the District's insurance plan which covers both active and retired members. Benefit provisions are established through collective bargaining agreements and state and state that eligible retirees and their spouses may participate at established contribution rates. The Retiree Health Plan does not issue a publicly available financial report.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2016

NOTE 9 - OTHER POST-EMPLOYMENT BENEFITS - (CONTINUED)

Contribution requirements are established through collective bargaining agreements and may be amended only through negotiations between the board and the union. Retired employees that chose to participate in the District's group health insurance plan pay 100% of the costs associated with the plan they choose to participate in. Eligible employees that participate in the THIS Fund receive varying amounts of benefits paid by the District directly to the THIS fund. For fiscal year 2016, total member contributions are \$69,598. Administrative costs of Retiree's Health Plan are paid by the District.

The District's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC). The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the District's annual OPEB cost for the year, the amount actually contributed to the Retiree Health Plan, and changes in the District's net OPEB obligation to the Retiree Health Plan:

Annual required contribution Interest on net OPEB obligation Adjustment to annual required contribution	\$ 112,075 2,443 (4,555)
Annual OPEB cost Contributions made Increase in net OPEB obligation	 109,963 (69,598) 40,365
Net OPEB Obligation - Beginning of Year	97,732
Net OPEB Obligation - End of Year	\$ 138,097

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the Retiree Health Plan, and the net OPEB obligation for June 30, 2016 is as follows:

Fiscal Year Ended		al OPEB	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation (Asset)
June 30, 2016 June 30, 2015 June 30, 2014	,	109,963 110,442 113,650	63.29 % 79.92 % 80.79 %	\$ 138,097 97,732 75,554

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2016

NOTE 9 - OTHER POST-EMPLOYMENT BENEFITS - (CONTINUED)

The funded status of the Retiree Health Plan as of July 1, 2014, the most recent actuarial valuation date, is as follows:

Actuarial accrued liability (AAL) Actuarial value of plan assets	\$ 1,336,617
Unfunded Actuarial Accrued Liability (UAAL)	\$ 1,336,617
Funded ratio (actuarial value of plan assets/AAL)	-%
Covered payroll (active plan members)	\$ 28,373,288
UAAL as a percentage of covered payroll	4.71%

Actuarial valuations of an ongoing plan involve estimates for the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan is understood by the employer and plan members) and include the type of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employer and plan members to that point. The methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2014 actuarial valuation, the projected unit credit actuarial cost method was used. The actuarial assumptions include a 2.5 percent investment rate of return and an annual healthcare cost trend rate of 0 percent initially, reduced by decrements to an ultimate rate of 1 percent after 6 years. Both rates include a 2 percent inflation assumption. The actuarial value of the Retiree Health Plan assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a three-year period. The Retiree Health Plan's unfunded actuarial accrued liability is being amortized as a level of percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2016 is 30 years.

NOTE 10 - RETIREMENT SYSTEMS

The retirement plans of the District include the Teachers' Retirement System of the State of Illinois (TRS) and the Illinois Municipal Retirement Fund (IMRF). Most funding for TRS is provided through payroll withholdings of certified employees and contributions made by the State of Illinois on-behalf of the District. IMRF is funded through property taxes and a perpetual lien of the District's corporate personal property replacement tax. Each retirement system is discussed below.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2016

NOTE 10 - RETIREMENT SYSTEMS - (CONTINUED)

Teachers' Retirement System

Plan Description. The District participates in the Teachers' Retirement System of the State of Illinois (TRS). TRS is a cost-sharing multiple-employer defined benefit pension plan that was created by the Illinois legislature for the benefit of Illinois public school teachers employed outside the city of Chicago. TRS members include all active nonannuitants who are employed by a TRS-covered employer to provide services for which teacher licensure is required. The Illinois Pension Code outlines the benefit provisions of TRS, and amendments to the plan can be made only by legislative action with the Governor's approval. The TRS Board of Trustees is responsible for the System's administration.

TRS issues a publicly available financial report that can be obtained at http://trs.illinois.gov/pubs/cafr; by writing to TRS at 2815 W. Washington, PO Box 19253, Springfield, IL 62794; or by calling (888) 877-0890, option 2.

Benefits Provided. TRS provides retirement, disability, and death benefits. Tier I members have TRS or reciprocal system service prior to January 1, 2011. Tier I members qualify for retirement benefits at age 62 with five years of service, at age 60 with 10 years, or age 55 with 20 years. The benefit is determined by the average of the four highest years of creditable earnings within the last 10 years of creditable service and the percentage of average salary to which the member is entitled. Most members retire under a formula that provides 2.2 percent of final average salary up to a maximum of 75 percent with 34 years of service. Disability and death benefits are also provided.

Tier II members qualify for retirement benefits at age 67 with 10 years of service, or a discounted annuity can be paid at age 62 with 10 years of service. Creditable earnings for retirement purposes are capped and the final average salary is based on the highest consecutive eight years of creditable service rather than the last four. Disability provisions for *Tier II* are identical to those of *Tier I*. Death benefits are payable under a formula that is different from Tier I.

Essentially all *Tier I* retirees receive an annual 3 percent increase in the current retirement benefit beginning January 1 following the attainment of age 61 or on January 1 following the member's first anniversary in retirement, whichever is later. *Tier II* annual increases will be the lesser of three percent of the original benefit or one-half percent of the rate of inflation beginning January 1 following attainment of age 67 or on January 1 following the member's first anniversary in retirement, whichever is later.

Contributions. The State of Illinois maintains the primary responsibility for funding TRS. The Illinois Pension Code, as amended by Public Act 88-0593 and subsequent acts, provides that for years 2010 through 2045, the minimum contribution to the System for each fiscal year shall be an amount determined to be sufficient to bring the total assets of the System up to 90 percent of the total actuarial liabilities of the System by the end of fiscal year 2045.

Contributions from active members and TRS contributing employers are also required by the Illinois Pension Code. The contribution rates are specified in the pension code. The active member contribution rate for the year ended June 30, 2016 was 9.4 percent of creditable earnings. The member contribution, which may be paid on behalf of employees by the District, is submitted to TRS by the District.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2016

NOTE 10 - RETIREMENT SYSTEMS - (CONTINUED)

On Behalf Contributions to TRS. The State of Illinois makes employer pension contributions on behalf of the District. For the year ended June 30, 2016, State of Illinois contributions recognized by the District were based on the state's proportionate share of the collective net pension liability associated with the District, and the District recognized revenue and expenditures of \$13,299,342 in pension contributions from the State of Illinois.

2.2 Formula Contributions. Employers contribute 0.58 percent of total creditable earnings for the 2.2 formula change. The contribution rate is specified by statute. Contributions for the year ended June 30, 2016, were \$143,918, and are deferred because they were paid after the June 30, 2015 measurement date.

Federal and Trust Fund Contributions. When TRS members are paid from federal and special trust funds administered by the District, there is a statutory requirement for the District to pay an employer pension contribution from those funds. Under a policy adopted by the TRS Board of Trustees that has been in effect since the fiscal year ended June 30, 2006, employer contributions for employees paid from federal and special trust funds will be the same as the state contribution rate to TRS. Public Act 98-0674 now requires the two rates to be the same.

For the year ended June 30, 2016, the District pension contribution was 36.06 percent of salaries paid from federal and special trust funds. Contributions for the year ended June 30, 2016, were \$54,078, which was equal to the District's required contribution. These contributions are deferred because they were paid after the June 30, 2015 measurement date.

Early Retirement Option. Contributions that an employer is required to pay because of a TRS member retiring are categorized as specific liability payments. The District is required to make a one-time contribution to TRS for members retiring under the Early Retirement Option (ERO). The payments vary depending on the member's age and salary. The maximum employer ERO contribution under the current program is 146.5 percent and applies when the member is age 55 at retirement. For the year ended June 30, 2016, the District did not pay for any District ERO contributions to TRS.

Salary increases over 6 percent. The District is also required to make a one-time contribution to TRS for members granted salary increases over 6 percent if those salaries are used to calculate a retiree's final average salary. For the year ended June 30, 2016, the District paid \$1,074 to TRS for employer contributions due on salary increases in excess of 6 percent.

Excess sick leave. A one-time contribution is also required for members granted sick leave days in excess of the normal annual allotment if those days are used as TRS service credit. For the year ended June 30, 2016, the District did not pay TRS for sick leave days granted in excess of the normal annual allotment.

TRS Fiduciary Net Position. Detailed information about the TRS's fiduciary net position as of June 30, 2015 is available in the separately issued TRS Comprehensive Annual Financial Report.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2016

Note 10 - Retirement Systems - (Continued)

Net Pension Liability. At June 30, 2016, the District reported a liability for its proportionate share of the net pension liability (first amount shown below) that reflected a reduction for state pension support provided to the District. The state's support and total are for disclosure purposes only. The amount recognized by the District as its proportionate share of the net pension liability, the related state support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the collective net pension liability	\$ 2,959,718
State's proportionate share of the collective net pension liability associated with the District	162,328,767
Total	\$ 165,288,485

The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2014, and rolled forward to June 30, 2015. The District's proportion of the net pension liability was based on the District's share of contributions to TRS for the measurement year ended June 30, 2015, relative to the projected contributions of all participating TRS employers and the state during that period. At June 30, 2015 and 2014, the District's proportion was 0.00451796 percent and 0.00391305 percent, respectively.

Summary of Significant Accounting Policies. For purposes of measuring the collective net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of TRS and additions to/deductions from TRS fiduciary net position have been determined on the same basis as they are reported by TRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Actuarial Assumptions. The assumptions used to measure the total pension liability in the June 30, 2015 actuarial valuation included (a) 7.50% investment rate of return net of pension plan investment expense, including inflation, (b) projected salary increases varies by amount of service credit, and (c) inflation of 3.00%.

The actuarial assumptions for the years ended June 30, 2015 and 2014 were different. The actuarial assumptions used in the June 30, 2015 valuation were based on the 2015 actuarial experience analysis. The investment return assumption remained at 7.5 percent, salary increase assumptions were lowered, retirement rates were increased, mortality updates were made and other assumptions were revised. The actuarial assumptions used in the June 30, 2014 valuation were based on updates to economic assumptions adopted in 2014 which lowered the investment return assumption from 8.0 percent to 7.5 percent. The salary increase and inflation assumptions were also lowered from their 2013 levels.

Mortality. Mortality rates were based on the RP-2014 White Collar Table with adjustments as appropriate for TRS experience. The rates are used on a fully-generational basis using projection table MP-2014.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2016

NOTE 10 - RETIREMENT SYSTEMS - (CONTINUED)

Long-Term Expected Real Rate of Return. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class that were used by the actuary are summarized in the following table:

Asset Class	Target	Long-Term Expected Real
Asset Class	Allocation	Rate of Return
U.S. large cap	18.00 %	7.53 %
Global equity excluding U.S.	18.00 %	7.88 %
Aggregate bonds	16.00 %	1.57 %
U.S. TIPS	2.00 %	2.82 %
NCREIF	11.00 %	5.11 %
Opportunistic real estate	4.00 %	9.09 %
ARS	8.00 %	2.57 %
Risk parity	8.00 %	4.87 %
Diversified inflation strategy	1.00 %	3.26 %
Private equity	14.00 %	12.33 %

Discount Rate. At June 30, 2015, the discount rate used to measure the total pension liability was a blended rate of 7.47 percent, which was a change from the June 30, 2014 rate of 7.50 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions, employer contributions, and state contributions will be made at the current statutorily-required rates.

Based on those assumptions, TRS's fiduciary net position at June 30, 2015 was not projected to be available to make all projected future benefit payments of current active and inactive members and all benefit recipients. Tier I's liability is partially funded by Tier II members, as the Tier II member contribution is higher than the cost of Tier II benefits. Due to this subsidy, contributions from future members in excess of the service cost are also included in the determination of the discount rate. Despite the subsidy, all projected future payments were not covered, so a slightly lower long-term expected rate of return on TRS investments was applied to all periods of projected benefit payments to determine the total pension liability.

At June 30, 2014, the discount rate used to measure the total pension liability was 7.50 percent. The discount rate was the same as the actuarially-assumed rate of return on investments that year because TRS's fiduciary net position and the subsidy provided by Tier II were sufficient to cover all projected benefit payments.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2016

NOTE 10 - RETIREMENT SYSTEMS - (CONTINUED)

Discount Rate Sensitivity. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.47 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.47 percent) or 1-percentage-point higher (8.47 percent) than the current rate:

	1% Decrease		1% Decrease Discount Rate		1% Increase	
District's proportionate share of the collective net pension liability	\$	3,657,486	\$	2,959,718	\$	2,387,530

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. For the year ended June 30, 2016, the District recognized pension expense of \$209,317 and on-behalf revenue and expense of \$13,299,342 for support provided by the state. At June 30, 2016, the District's deferred outflows of resources and deferred inflows of resources related to pensions were from the following sources:

	C	Deferred Outflows of Resources		Deferred Inflows of Resources
Differences between expected and actual experience Net difference between projected and actual earnings on pension plan	\$	1,100	\$	3,244
investments Assumption changes Changes in proportion and differences between District contributions and		58,615 40,930		103,639 -
proportionate share of contributions District contributions subsequent to the measurement date		308,059 197,996		354,500
Total	\$	606,700	<u>\$</u>	461,383

The amount reported as deferred outflows resulting from contributions subsequent to the measurement date in the above table will be recognized as a reduction in the net pension liability for the year ending June 30, 2017. The remaining amounts reported as deferred outflows and inflows of resources related to pensions (\$(52,679)) will be recognized in pension expense as follows:

	Year Ending June 30,	Amount
2017		\$ (45,186)
2018		(45,186)
2019		(45,186)
2020		82,879
Total		\$ (52,67 <u>9</u>)

Illinois Municipal Retirement Fund

Plan Description. The District's defined benefit pension plan for Regular employees provides retirement and disability benefits, post retirement increases, and death benefits to plan members and beneficiaries. The District's plan is affiliated with the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained on-line at www.imrf.org.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2016

NOTE 10 - RETIREMENT SYSTEMS - (CONTINUED)

All employees hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. Public Act 96-0889 created a second tier for IMRF's Regular Plan. IMRF assigns a benefit tier to a member when he or she is enrolled in IMRF. The tier is determined by the member's first IMRF participation date. If the member first participated in IMRF before January 1, 2011, they participate in *Regular Tier 1*. If the member first participated in IMRF on or after January 1, 2011, they participate in *Regular Tier 2*.

For Regular Tier 1, pension benefits vest after eight years of service. Participating members who retire at or after age 60 with 8 years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Regular Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement. For Regular Tier 2, pension benefits vest after ten years of service. Participating members who retire at or after age 67 with 10 years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Regular Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the lesser of 3% of the original pension amount, or 1/2 of the increase in the Consumer Price Index of the original pension amount. IMRF also provides death and disability benefits. These benefit provisions and all other requirements are established by state statute.

Plan Membership. At December 31, 2015, the measurement date, membership of the plan was as follows:

Retirees and beneficiaries	140
Inactive, non-retired members	363
Active members	126
Total	629

Contributions. As set by statute, District employees participating in IMRF are required to contribute 4.50 percent of their annual covered salary. The statute requires the District to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The District's actuarially determined contribution rate for calendar year 2015 was 11.35 percent of annual covered payroll. The District also contributes for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net Pension Liability/(Asset). The net pension liability/(asset) was measured as of December 31, 2015, and the total pension liability used to calculate the net pension liability/(asset) was determined by an annual actuarial valuation as of that date.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2016

NOTE 10 - RETIREMENT SYSTEMS - (CONTINUED)

Summary of Significant Accounting Policies. For purposes of measuring the net pension liability/(asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of IMRF and additions to/deductions from IMRF fiduciary net position have been determined on the same basis as they are reported by IMRF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Actuarial Assumptions. The assumptions used to measure the total pension liability in the December 31, 2015 annual actuarial valuation included (a) 7.46% investment rate of return, (b) projected salary increases from 3.75% to 14.50%, including inflation, and (c) price inflation of 2.75%. The retirement age is based on experience-based table of rates that are specific to the type of eligibility condition. The tables were last updated for the 2014 valuation pursuant to an experience study of the period 2011-2013.

Mortality. For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

Long-Term Expected Real Rate of Return. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

Projected Returns/Risk

Asset Class	Target Allocation	One Year Arithmetic	Ten Year Geometric
F	00.00.0/	0.05.0/	
Equities	38.00 %	8.85 %	7.39 %
International equities	17.00 %	9.55 %	7.59 %
Fixed income	27.00 %	3.05 %	3.00 %
Real estate	8.00 %	7.20 %	6.00 %
Alternatives	9.00 %		
Private equity		13.15 %	8.15 %
Hedge funds		5.55 %	5.25 %
Commodities		4.40 %	2.75 %
Cash equivalents	1.00 %	2.25 %	2.25 %

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2016

NOTE 10 - RETIREMENT SYSTEMS - (CONTINUED)

Discount Rate. The discount rate used to measure the total pension liability for IMRF was 7.46%. The discount rate calculated using the December 31, 2014 measurement date was 7.48%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that District contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the fiduciary net position was projected not to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on investments of 7.50% was blended with the index rate of 3.57% for tax exempt 20-year general obligation municipal bonds with an average AA credit rating at December 31, 2015 to arrive at a discount rate of 7.46 used to determine the total pension liability. The year ending December 31, 2083 is the last year in the 2016 to 2115 projection period for which projected benefit payments are fully funded.

Discount Rate Sensitivity. The following is a sensitivity analysis of the net pension liability/(asset) to changes in the discount rate. The table below presents the pension liability of the District calculated using the discount rate of 7.46% as well as what the net pension liability/(asset) would be if it were to be calculated using a discount rate that is 1 percentage point lower (6.46%) or 1 percentage point higher (8.46%) than the current rate:

				Current		
	1% Decrease		Discount Rate		1% Increase	
Total pension liability Plan fiduciary net position	\$	21,331,242 15,894,224	\$	19,090,819 15,894,224	\$	17,219,479 15,894,224
Net pension liability/(asset)	<u>\$</u>	5,437,018	\$	3,196,595	<u>\$</u>	1,325,255

Changes in Net Pension Liability/(Asset). The District's changes in net pension liability/(asset) for the calendar year ended December 31, 2015 was as follows:

			Incre	ease (Decreas	e)		
	T	otal Pension		lan Fiduciary	1	Net Pension	
8		Liability Net Position			Liability/(Asset)

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2016

NOTE 10 - RETIREMENT SYSTEMS - (CONTINUED)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. For the year ended June 30, 2016, the District recognized pension expense of \$1,245,971. The District's deferred outflows and inflows of resources related to pension were from the following sources:

	Deferred Outflows of Resources			Deferred Inflows of Resources	
Differences between expected and actual experience Assumption changes Net difference between projected and actual earnings on pension plan	\$	33,261 18,351	\$	-	
investments Contributions subsequent to the measurement date		1,016,282 236,855		-	
Total	\$	1,304,749	\$	-	

The amount reported as deferred outflows resulting from contributions subsequent to the measurement date in the above table will be recognized as a reduction in the net pension liability/(asset) for the year ending June 30, 2017. The remaining amounts reported as deferred outflows and inflows of resources related to pensions (\$1,067,894) will be recognized in pension expense as follows:

	Year Ending December 31,		Amount	
2016		\$	316,302	
2017		. ▼	264,690	
2018			264,688	
2019			222,214	
Total		\$	1,067,894	

NOTE 11 - STATE AND FEDERAL AID CONTINGENCIES

The District has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursements to the grantor agency for expenditures disallowed under the terms of the grants. Management believes such disallowance, if any, would be immaterial.

INSTRUCTIONS/REQUIREMENTS: For School Districts/Joint Agreements

All School Districts/Joint Agreements must complete this form (Note: joint agreement supplementary/statistical schedules may not be applicable)

Round all amounts to the nearest dollar. Do not enter cents. (Exception: 9 Month ADA on page 28, line 78)

This form complies with Part 100 (Requirements for Accounting, Budgeting, Financial Reporting, and Auditing).

23, Illinois Administrative Code 100, Subtitle A, Chapter I, Subchapter C (Part 100)

Any errors left unresolved by the Audit Checklist/Balancing Schedule must be explained in the itemization page.

Submit AFR Electronically

* The Annual Financial Reports (AFR) must be submitted directly through the Attachment Manager to the AFR Group by the Auditor or School District designated personnel (Please see Instructions for complete submission procedures).

Attachment Manager Link

Note: CD/Disk no longer accepted.

* AFR supporting documentation must be embedded as Microsoft Word (.doc), Word Perfect (*.wpd) or Adobe (*.pdf) and inserted within tab "Opinions & Notes". These documents include: The Audit, Management letter, Opinion letters, Compliance letters, Financial notes etc.... For embedding instructions see "Opinions & Notes" tab of this form.

Note: Adobe Acrobat (*.pdf) files cannot be embedded if you do not have the software. Simply attach files as separate docs in the Attachment Manager and they will be embedded for you.

Submit Paper Copy of AFR with Signatures

- 1) The auditor must send three paper copies of the AFR form (cover through page 8 at minimum) to the School District with the auditor signature.

 Note: School Districts and Regional Superintendents may prefer a complete paper copy in lieu of an electronic file. Please comply with their requests as neccessary.
- Upon receipt, the School District retains one copy for their records, signs, and forwards the remaining two copies to the Regional Superintendent's
 office no later than October 15, annually.
- Upon receipt, the Regional Superintendent's office retains one copy for their records, signs, and forwards the remaining paper copy to ISBE no later than November 15, annually.
- * Yellow Book, CPE, and Peer Review requirements must be met if the Auditor issues an opinion stating "Governmental Auditing Standards" were utilized. Single Audit Act

Qualifications of Auditing Firm

- * School District/Joint Agreement entities must verify the qualifications of the auditing firm by requesting the most current peer review report and the corresponding acceptance letter from the approved peer review program, for the current peer review period.
- * A school district/joint agreement who engages with an auditing firm who is not licensed and qualified will be required to complete a new audit by a qualified auditing firm at the school district's/joint agreement's expense.

PART A - FINDINGS

AUDITOR'S QUESTIONNAIRE

INSTRUCTIONS: If your review and testing of State, Local, and Federal Programs revealed any of the following statements to be true, then check the box on the left, and attach the appropriate findings/comments.

	1	. One or more school board members, administrators, certified school business officials, or other qualifying district employees failed to file economic interest statements pursuant to the <i>Illinois Government Ethics Act. [5 ILCS 420/4A-101]</i>
	2	2. One or more custodians of funds failed to comply with the bonding requirements pursuant to Sections 8-2, 10-20.19 or 19-6 of the School Code. [105 ILCS 5/8-2; 10-20.19; 19-6]
	4	6. One or more contracts were executed or purchases made contrary to the provisions of Section 10-20.21 of the School Code. [105 ILCS 5/10-20.21] 6. One or more violations of the Public Funds Deposit Act or the Public Funds Investment Act were noted. [30 ILCS 225/1 et. seq. and 30 ILCS 235/1 et. seq.] 6. Restricted funds were commingled in the accounting records or used for other than the purpose for which they were restricted.
		. One or more short-term loans or short-term debt instruments were executed in non-conformity with the applicable authorizing statute or without statutory Authority.
(Tab. 14) Ma	7	One or more long-term loans or long-term debt instruments were executed in non-conformity with the applicable authorizing statute or without statutory Authority.
	8	. Corporate Personal Property Replacement Tax monies were deposited and/or used without first satisfying the lien imposed pursuant to the State Revenue Sharing Act. [30 ILCS 115/12]
		One or more interfund loans were made in non-conformity with the applicable authorizing statute or without statutory authorization.
		. One or more interfund loans were outstanding beyond the term provided by statute. One or more permanent transfers were made in non-conformity with the applicable authorizing statute/regulation or without statutory/regulatory authorization.
		Substantial, or systematic misclassification of budgetary items such as, but not limited to, revenues, receipts, expenditures, disbursements or expenses were observed.
	13.	The Chart of Accounts used to define and control budget and accounting records does not conform to the minimum requirements imposed by
	14.	ISBE rules pursuant to Sections 2-3.27 and 2-3.28 of the School Code. [105 ILCS 5/2-3.27; 2-3.28] At least one of the following forms was filed with ISBE late: The FY15 AFR (ISBE FORM 50-35), FY15 Annual Statement of Affairs (ISBE Form 50-37)
		and FY16 Budget (ISBE FORM 50-36). Explain in the comments box below.
		ISBE rules pursuant to Sections 3-15.1, 10-17, and 17-1 of the School Code [105 ILCS 5/3-15.1; 5/10-17; 5/17-1]
PART	В-	FINANCIAL DIFFICULTIES/CERTIFICATION Criteria pursuant to Section 1A-8 of the School Code [105 ILCS 5/1A-8]
	15.	The district has issued tax anticipation warrants or tax anticipation notes in anticipation of a second year's taxes when warrants or notes in anticipation of current year taxes are still outstanding, as authorized by Sections 17-16 or 34-23 thru 34-27 of the School Code. [105 ILCS 5/17-16 or 34-23 thru 34-27]
	16.	The district has issued short-term debt against two future revenue sources, such as, but not limited to, tax anticipation warrants and General State Aid
,		certificates or tax anticipation warrants and revenue anticipation notes.
L	17.	The district has issued school or teacher orders for wages as permitted in Sections 8-16, 32-7.2 and 34-76 of the School Code or issued funding
	18.	bonds for this purpose pursuant to Section 19-8 of the School Code. [105 ILCS 5/8-6, 32-7.2, 34-76, and 19-8] The district has for two consecutive years shown an excess of expenditures/other uses over revenues/other sources and beginning fund balances
l-med		on its annual financial report for the aggregate totals of the Educational, Operations & Maintenance, Transportation, and Working Cash Funds.
PART		OTHER ISSUES
		Student Activity Funds, Imprest Funds, or other funds maintained by the district were excluded from the audit. Findings, other than those listed in Part A (above), were reported (e.g. student activity fund findings).
		Federal Stimulus Funds were not maintained and expended in accordance with the American Recovery and Reinvestment Act (ARRA) of 2009. If checked,
horasari managari		an explanation must be provided.
X		Check this box if the district is subject to the Property Tax Extension Limitation Law. Effective Date: 10/1/1991 (Ex: 00/00/0000)
ليا	23.	If the type of Auditor Report designated on the cover page is other than an unqualified opinion and is due to reason(s) other than solely Cash Basis Accounting, please check and explain the reason(s) in the box below.

PART D - EXPLANATION OF ACCOUNTING PRACTICES FOR LATE MANDATED CATEGORICAL PAYMENTS

(For School Districts who report on an Accrual/Modified Accrual Accounting Basis only)

School districts that report on the accrual/modified accrual basis of accounting must identify where late mandated categorical payments (Acct Codes 3100, 3105, 3110, 3500, and 3510) are recorded. Depending on the accounting procedure these amounts will be used to adjust the Direct Receipts/Revenues in calculation 1 and 2 of the Financial Profile Score. In FY2016, identify those late payments recorded as Intergovermental Receivables, Other Recievables, or Deferred Revenue & Other Current Liabilities or Direct Receipts/Revenue. Payments should only be listed once.

24. Enter the date that the district used to accrue mandated categorical payments

Date: 8/31/2016

25. For the listed mandated categorical (Revenue Code (3110, 3500, 3510, 3100, 3105) that were vouchered prior to June 30th, but not released until after year end as reported in ISBE FRIS system, enter the amounts that were accrued in the chart below.

	Account Name	3110	3500	3510	3100	3105	Total

PART E - QUALIFICATIONS OF AUDITING FIRM

- * School District/Joint Agreement entities must verify the qualifications of the auditing firm by requesting the most current peer review report and the corresponding acceptance letter from the approved peer review program for the current peer review.
- * A school district/joint agreement who engages with an auditing firm who is not licensed and qualified will be required to complete a new audit by a qualified auditing firm at the school district's/joint agreement's expense.
