1:30-2pm

Sustainable Landscaping of the Boathouse

*By Jonathan Lawrence, Landscape Architect
Conservation Design Forum*

2:15-2:45pm

Woodland Wildflowers and Restoration

By Glen Ellyn Park District natural resource staff

3:00pm

History of Lake Ellyn

By local historian Dan Anderson

When two creeks and a natural spring were dammed to create Lake Ellyn in 1889, the original plans called for private homes to be built all along its shores. Learn why these plans never materialized during an entertaining walking tour presented by historian Dan Anderson. Please wear comfortable shoes for a walk around the lake.

LIVE MUSIC: 2-3:30PM **Majors Junction**

Majors Junction produces a diverse meld of country honky-tonk blues with folk undertones and hints of bluegrass and rock and roll.

Activities

- Canoe & kayak rentals
- Student Earth Art Exposition
- Visit with eco-groups to learn of local green efforts

Eco-Organizations

Citizen's Climate Lobby • DuPage Monarch Group
Glen Ellyn Environmental Commission • Illinois Solar Association
Prairie Food Co-op • SCARCE • Sierra Club – River Prairie Group
Sustain DuPage • The GardenWorks Project • The Resiliency Institute

School District 41

- Student's Earth Art posters on display
- Visit with Hadley School Builder's Club to learn how you can volunteer for their Garden for Giving
- Learn about student's eco-focused Problem Based Learning projects
- Participate in the kid's eco-stations and scavenger hunt. Learn about bees, recycling, native flowers, and win a prize!

Rain Barrels

Pre-order a rain barrel for pick up at event or purchase one on Earth Day (limited supply). Plus, there will be a silent auction bid on two hand-painted rain barrels! For more information, visit www.gepark.org.
