Dear Lincoln Parents,

I am excited to share that all Lincoln students in grade 1st to 5th now have access to a our keyboarding program, Typing Club. This program will assist each student in mastering keyboarding. Our 2nd to 5th grade students have been introduced to this keyboarding program during their Digital Media class. First grade will be introduced to the program next month. So if you would like to start exploring Typing Club, the portal to access this program is https://glenellynd41.typingclub.com/.   This link can also be found on our Library Media Center webpage.

Students will then be prompted to enter their username@d41.org (no password) to access their Typing Club account.

Students have been using this program at school during their Digital Media class. Students will continue to practice during Digital Media, on occasion, but it is highly encouraged to log on regularly at home for consistent practice. Students would benefit from at least 10-15 minutes of keyboarding practice, each day. Please encourage your child/children to use proper technique and keep their fingers placed in the proper position.

TypingClub is 100% web-based, so there are no downloads or plugins required. All you need is one of the following modern browsers: Google's Chrome, Firefox, Safari, Internet Explorer 9 or Internet Explorer 10.

Please contact me if you have any questions or concerns. Happy Keyboarding!
