The presentation, "Growing Writers", demonstrated Hadley's focus on writing across the content areas with emphasis on higher order thinking. The presentation included interviews with teachers and students who provided testimonials on how literacy/writing has been incorporated across the content areas. Dr. Dransoff emphasized the importance of the partnership between Hadley and Glenbard West High School and noted that both schools are committed to ensuring that Hadley students possess the writing skills needed for the rigorous high school experience. Next steps will include creating a template that learning teams will use to document the writing and gather benchmark data and continued articulation with Glenbard West.

The Board noted the importance of "telling the story" and keeping parents informed about what Hadley teachers are doing.

Discussion Items

The Board discussed the following matters:

A. Compass Learning Odyssey Proposal: The board discussed the administration's recommendation to purchase the Odyssey instructional software program from Compass Learning. The Odyssey curriculum, a standards-aligned, personalized web-based program is used by many districts nationwide for remedial interventions and reinforcement and enrichment. The Odyssey program is directly aligned to the Measures of Academic Progress (MAP) test that students take twice yearly. Odyssey imports student data from the Northwest Evaluation Association (NWEA) and then creates an individualized learning path targeting specific goal areas for each child. The software can be used by students before, during and after school and district officials are considering it as an alternative to the district's summer school program. Dr. Riebock noted that the summer school program is an expensive undertaking which has been less than effective the last two years and has not met expectations in terms of the money expended. The cost of the Odyssey program is \$158,604 less a 5% discount for a total cost of \$150,674. Additional costs include an annual maintenance agreement of \$15,600. The board expects to take action on the matter at its February 27, 2012 meeting.

The board asked whether students would have access to the full K-12 spectrum of options for their learning paths and discussed the Odyssey program as an alternative to the district's current summer school program. A recommendation to utilize Odyssey for the district's summer school program would occur following the board's approval of purchase of the Odyssey program. Karen Carlson noted that she will communicate with CCSD 93 which has recently determined that Odyssey will be its primary summer school curriculum.

- B. 2012 Summer Capital Projects: The Hadley parking lot renovation and storm water project is the District's main capital project proposed for this summer and is currently out for bid. Bid submissions are expected back by mid-February. Once the bids are in, the administration will have a better idea as to the funds available for additional summer projects that are on its long-range capital improvement plan. One project the administration would like the board to consider is a request to go out for bid for complete interior painting at Benjamin Franklin, Churchill and Forest Glen at an estimated cost of \$210,000. Abraham Lincoln's interior was repainted. Each school will have its own color scheme. The board expects to take action on the matter at its February 27, 2012 regular meeting.
- C. 2012-2013 School Calendar Draft: Dr. Riebock thanked board member Dan Smith for serving on the Calendar Committee as well as Terra Costa Howard who formerly served on the committee. Dr. Riebock noted that the Committee's focus has always been to maximize the number of unbroken five day weeks for continuity of instruction. Dr. Riebock further noted that the 2012-2013 proposed

calendar is similar to this year's with minimal changes: creation of more unbroken five-day weeks; Wednesday before Thanksgiving is a non-attendance day; Tuesday before Thanksgiving a SIP day; President's Day is reinstated; no students in attendance on first day of parent-teacher conferences; last day of school is a SIP day with a half day student attendance.

The board discussed the possibility for low attendance on the week of Thanksgiving. It was noted that the committee examined the data and considered a number of different configurations and each of these configurations presented a different set of challenges. The data indicated that attendance on the Tuesday before Thanksgiving was very similar to average daily attendance.
