

Glen Ellyn School District 41 2016 Community Survey Results Summary Space for Full-Day Kindergarten

Filter Map

Do you live in District 41? = Yes

If the community supports the District offering full-day kindergarten, additional space would be needed.

The community has three options:

Add space at the existing elementary schools

This option would provide classroom space to serve the additional kindergarten students. Due to the increased number of full-day students, dedicated space would be created and/or expanded for art and music, small group instruction and collaboration. Educational support spaces (e.g. cafeteria, library, student services) will also be expanded as needed. All elementary attendance boundaries would be maintained.

Estimated cost: Up to \$30 million

Build a new early learning center

This option would build an early learning center to serve approximately 450 preschool and kindergarten students at a cost of approximately \$24 million. With this option, all early childhood and kindergarteners would attend the early learning center and then attend their neighborhood/boundary school for 1st through 5th grade. In addition, due to capacity issues at existing elementary schools, educational support spaces (e.g. cafeteria, library, student services) will also be expanded as needed at a cost of approximately \$5 million. All elementary attendance boundaries would be maintained.

Estimated cost: Up to \$29 million

Build a new elementary school

This option would build a new elementary school to serve approximately 550 students in kindergarten through 5th grade. With this option, all existing elementary attendance

boundaries would be adjusted, creating capacity for kindergarten classrooms at each school. This would address capacity needs for the foreseeable future.

Estimated cost: Up to \$30 million

Question: Which plan would you support to allow the District to offer full-day kindergarten? (Select all that apply)			
	count	percentage n = 1273	
Add space at the existing elementary schools	525	41.24	
Build a new early learning center	263	20.65	
Build a new elementary school	246	19.32	
I would not support any plan	355	27.88	
I don't know/need more information	198	15.55
